

How to program Corolla keys

- 1) First of all, it's necessary to have one of the two original keys. It is going to be the 'Master Key';
- 2) Get in the vehicle and close all doors;
- 3) Insert master key (original) in ignition cylinder for within 5 seconds (after the doors close);
- 4) Turn key to 'LOCK ON' position, 5 times within 15 seconds;
- 5) Leave key in ON position;
- 6) Open and close the driver's door 6 times within 20 seconds;
- 7) Take off the master key from ignition cylinder and insert new key (copy) within 10 seconds;
- 8) Turn key to ON position and keep it for 60 seconds (1 minute);
- 9) Take off the key(copy).
